

ANNOUNCEMENT FROM OUR ELDERS

In order to comfortably accommodate our worship attendance and still meet CDC distancing guidelines, we will be having two Sunday morning services in the main auditorium. The first service is at 8 AM and the second at 10 AM. If you would prefer, we are still doing the online stream of the service @ 10 AM. Our Wednesday service will be at 6:30 in the Auditorium only.

Due to the present health crisis, if you plan to attend, we ask you to read the Arkansas State Health Dept. guidelines @ <https://www.healthy.arkansas.gov/programs-services/topics/covid-19-guidance-for-faith-based-organizations> and do your best to comply with these guidelines.

In the Auditorium, there will be only two doorways for entry and exit. These will be the main doorway facing Walnut Street and the breezeway door that accesses the lower parking lot. The doorway at the front of the auditorium will be for emergency exiting only. No childcare will be provided at this time, and we ask that you do not enter the educational wing of the building. Please strive to maintain 6 feet distancing between family groups as you enter and exit the building. Due to the physical distancing guidelines, you may be asked to sit away from your usual area of the auditorium so that there is room for everyone. There will be elders and deacons to assist you with entry, seating and exiting worship.

Individual communion packets can be picked up in the foyer as you enter the building. Offering plates will be available for giving in the foyer as you exit. If you have existing health problems or are over 65 years of age, then group worship may put your health at risk. If you have questions about this, please consult with your healthcare provider to see if attendance is safe for you at this time.

(return service requested)

Recently, the traffic around town seems heavier than ever. As I sit amidst the congestion of endless cars and trucks, I often ask myself, “Where did all of these people come from”? It just seems that there are so many more people around these days -- even in small-town America.

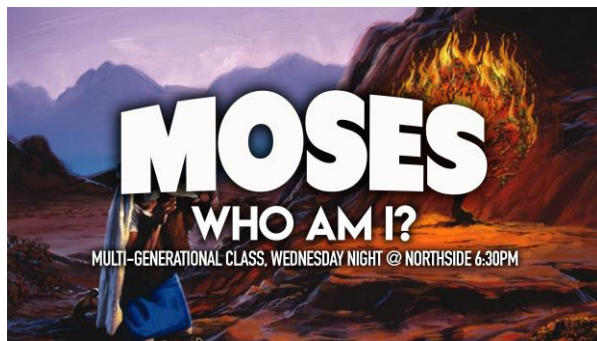

Have you ever heard of Nargis Kumar (India), or Danica May Camacho (Philippines) or possibly of Wattalage Muthumai (Sri Lanka)? In case you haven’t, these three children, who have just turned 9 years old, have been (symbolically) chosen as the 7 billionth child born on our planet. Of course, there is no way of knowing who actually was the 7 billionth person to be born - but these three children could each have been the one! The date was 31st October 2011; girls were selected to mark this milestone because historically female children have been less valued in Asian cultures than males. It was time to publicly redress the balance, and make the point that every human life is valuable, important and as worthwhile as every other one, regardless of gender and color of skin...

When I started to write this article, the world population stood at 7,822,732,000. If you look at the site on <https://www.worldometers.info/world-population/> you will see by how much population has increased since Monday 2nd November at 10 in the morning... You can also see the population of the USA in real time: taking into account the deaths that are occurring, it increases by one person roughly every 30 seconds.

Here is some striking data: at the beginning of the 19th Century, the world population stood at 1 billion. It took about 125 years for that to double: in the mid-1920s the 2 billion milestone was reached. A mere 33 years later, 3 billion came on the clock (1960). The next billion was reached 14 years down the line. In 1987 world population was 5 billion. In 1999 it was 6 billion. And the 7 billion milestones came at the end of 2011 - gaps of 12 years separating the last two increases. Where this will end is not yet known, but.... mercifully the rate is projected to slow down a little going forward: 8 billion in 2027 (16 years) and 9 billion in about 2046 (19 years).

Continued on inside right....

Family News

Wednesday nights are great nights for the whole family to worship together!

Announcements

The Harvest is Plentiful

.... Continued from front page

Will our planet be able to sustain such dramatic numbers? Or will our grandchildren and great-grandchildren be setting off for life on Mars, or on Saturn's moon Titan? Wait and see.... BTW Earth's population now stands at 7,822,735,600 one hour after I started writing - an increase of 3600 people. Wow.

The above statistics are mind-boggling. And when I step outside the numbers themselves and consider that each person is an individual soul with an eternal destiny it overwhelms me. "When Jesus saw the crowds, he had compassion on them . . . and he said to his disciples, 'The harvest is plentiful but the workers are few. Ask the Lord of the harvest, therefore, to send out workers into his harvest field' (--Matthew 9:36-37)."

I pray that I will always have an awareness of the ever-increasing ripening harvest, and be committed to working with greater effort in God's harvest field.
